Petition to save the St. Regis Mountain Fire Tower

2nd version Page __ of __

We are in support of this Fire Tower remaining in its current location on the Summit of St. Regis Mountain. Since this historic structure was erected in 1918, it has been a significant asset to the area. For aesthetic, recreational, and historical reasons we request that the tower's current "non-conforming" status be removed so that this tower can be saved and restored for future generations.
